

REGAIN YOUR HEALTH WITH US IN TURKEY

MTS - MEDICAL TOURISM SERVICES

Turkey is among the top ten medical tourism countries and is the 3rd largest JCI accredited country in the world. MTS works with leading doctors and technologically equipped clinics that provide examinations and treatments based on the latest technological innovations in the medical sector.

We do combined medical packages that integrate vacation options with high-level medical treatments. Hereby, patients have a wonderful holiday on the south coast of the mediterranean sea of Turkey while they have treated with the package they choose.

Fix price treatment packages would be a good choice for tourism agencies to integrate tailor-made medical services and open new possibilities for your customers.

Niche medical treatments that make Turkey the best choice to have treatment:

ORTHOPEDY

ONCOLOGY

ROBOTIC SURGERIES

OPHTHALMOLOGY

AESTHETIC SURGERY

BARIATRIC SURGERY

CARDIOLOGY

DENTAL SURGERY

IN VITRO
FERTILIZATION (IVF)

HAIR
TRANSPLANTATION

Medical Tourism Services, combines all the main areas of treatment. We cooperate with leading doctors with experience of work in leading medical centers in Europe and the USA. We have focused not only on providing quality treatment options in Turkey, for today we can offer patients the most innovative treatment methods, ranging from oncology to cosmetic procedures.

By submitting a form for obtaining a secondary medical opinion, you will not only be able to confirm the diagnosis or receive alternative treatment from well-known doctors, you will receive a complete treatment program with additional services that you can find on our website in the supportive services section.

For our patients, in each treatment program that is prepared individually, you receive the complimentary services of an interpreter, transfer and an assistant who will be in touch with you throughout your medical trip to Turkey. The "Follow Up" patient management service will help you not to worry about returning to your home country after your medical treatment.

More information about our all services you can get by visiting our website.
