## ABOUT OUR COMPANY!

Medical Tourism Services is an accredited medical tourism agency by the Turkish Health Ministry and Turkey Travel Agencies Association. Our main concern is to provide leading treatment options combined with patient tailored services and build strong relationships with partners abroad.

Build a strong relationship for us is to bring all possible solutions of innovative treatment options and services for partner's business integration regardless of location and nationality of the clients. We share values for upgrading medical services worldwide. In this frame we collaborate with different agencies and hospitals who working abroad, providing not only treatment services for customers who seek to be cured by world class doctors in internationally JCI accredited hospitals but rehabilitation and educational programs for professionals as well.

## BASICS BENEFITS OF PARTNERSHIP

While you care about the professional part of your business, we care about the medical services that you provide for your clients. Starting from the application part, we assist all patients referred by your side with complete services for the whole medical journey. We provide post-treatment follow-up and consultative assisting in the rehabilitation period as well.

High organizational efficiency and commercial remuneration structure provide satisfying medical services sales results. Patients receive all kinds of medical consultancy independent of location with the support of agents.

We work with agencies based on a **10%** stable remuneration percentage except for medicines and consumables.

### **Staircase system based on monthly profit.**

- ✓ 1% - More than 10.000 \$
- ✓ 2% - More than 15.000 \$
- ✓ 3% - More than 20.000 and higher

- Our partners have tailor-made medical treatment packages based on their company and the demands of clients. You would be assisted during the whole integration process by our marketing and sales specialist.
- Reaching Top Doctors with the service of online consultation at affordable prices for your clients only will be a good option for patients to have distanced impact on their health. Your VIP clients could receive high level transportation, accommodation and hospitalization services based on request.
- The experienced professional team will be your medical services partner during all partnership period. MTS constructed on Eventtime Company, A class tourism agency with 33 years of MICE experience in the tourism sector. We combined our medical experience with tourism in a corporate structure in which all departments actively working on the development of medical services and partnerships.
- You would find whole medical services opportunities on one hand compared to the divided structure of cooperating with facilities one by one. MTS will be all in one solution for your medical services needs.

We looking for partners who are interested in sharing innovative medical solutions with a unique approach of leading MD in Turkey.

Medical services for patients who would like to have rehabilitation and rest period in the most suitable climate could prefer Bodrum and Antalya regions to have medical treatment. Based on the agreement you would be an official agent to receive and provide leading treatment options for your clients.

**Please do not hesitate to reach us for starting a new partnership in the medical tourism sector. We care about all partnership path, starting from first consultations up to the following process. All needed information will be provided by us regarding the services you need.**
